

## COMMEMORATING 2021 GLOBAL SAFETY DAY

In pursuance of entrenching total safety culture and embracing the New Namdeb Journey to Wellness (NNJW)), Namdeb celebrated the 2021 Global Safety Day across its operations on Thursday, 14 October 2021.

The theme for this year is ***Always Safe: Being Our Strongest Link*** and the day's exciting programme that started off by insightful messages shared from De Beers Group CEO, Bruce Cleaver, Namdeb CEO, Riaan Burger and the Chief Operating Officer, Jurgen Jacob. The messages were followed by video messages from group and Namdeb employees

To ensure full team participation in the day's programme, onsite interactive activities were held across the operation that included **team discussion on psychological safety**, celebrating each other and Sharing Stories. This was followed by an enjoyable **Telephone game using gestures** as a way of illustrating how messages easily lose original meaning along the communication channels. Then it was time for the teams to express themselves artistically using paint brush on the canvass, illustrating how they perceived their teams.

The day's activities were concluded on rather a "sumptuous" note when various teams came together and enjoyed the delicious braai.
